

Oxford Cambridge and RSA

POST EXAM CORRECTION

Monday 6 June 2022 - Afternoon

GCSE (9-1) Psychology

J203/02 Studies and applications in psychology 2

If you wish to use the published question paper as practice material, please make the following correction:

Turn to **page 12** of the **question paper** and look at **question 14(d)**.

Cross out

'Ali found that 60% of females and 40% of males were likely to stop and help someone who had fallen over.'

and replace with

'Ali found that 60% of participants said that they would stop and help someone who had fallen over, and 40% of participants said that they would not stop and help.'

The question should now read:

Ali found that 60% of participants said that they would stop and help someone who had fallen over, and 40% of participants said that they would not stop and help.

Draw a pie chart to show Ali's findings.
